I am a real American.
Fight for the rights of every man.
I am a real American.
Fight for what's right
Fight for your life!

Good hour and a half of insane schlock. Don't buy for more than \$310.. Oh, Capcom. You were doing so well...

The Evil Within made the rather, ahem, "interesting" decision to have a beat-'em-up for a DLC...and some bright spark on the RE team decided this would be a wise move to emulate. So here we have it...Resident Evil: The Brawler!

*It's alright. It's fine. Actually, it's pretty good. But man, is it dumb. Your character, the hitherto-unknown Joe, even taunts his enemies with insults like "mouldy motherf*cker" before givin' them the ol' one-two. Actually, make that more like one-two-three-four, as there's "combos" for you to master; 'cause let's face it, there ain't nothin' on this here planet scarier than fightin' combos...*

Okay, so it doesn't try too hard to be scary. Which is a good thing, 'cause it certainly doesn't succeed. There's a few minor moments, but suffice it to say, this DLC won't likely please those who only play horror games for the heebie-jeebies. Less discriminatin' folk should get some jollies from it, though.

Overall, a decent - if rather repetitive, and by no means inspired - beat-'em-up game (with a wee bit of stealth, and a tiny bit of crafting). A game/DLC that, at around two hours in length, certainly doesn't overstay its welcome...but also doesn't justify its hefty RRP. I honestly wouldn't recommend this to anyone at full price. Find it for at least 50% off - 75%, if you really don't dig the ol' first-person fisticuffs - and you have a much better deal on your hands. (Er, fists. So okay, there's hand-made spears and bombs too, but mostly you'll just be punching things.)

File under "fun", as opposed to "essential". Though some might argue that it gives a bit more closure to the Zoe story (personally, I wasn't much concerned). And hey: at least it's better than RE6. But then again: a helluva lotta things are.

Verdict: 8/10.

Cheers!). Damn.

[Seriously, I just can't move my eyes off Zoe. Am I the only pervert here?. Short and sweet, like a powerful punch.](#)

[Actually no, this might be the most ridiculous and awesomely entertaining thing I have experienced in video games in a long time. You haven't lived until you've punched monsters with a power fist in a swamp with orchestral music playing in the background.. Turning the cower-fest that was playing as Ethan into punching everything you don't understand is an absolute joy.](#)
