Definitely one of the top 5 games made on RPGMaker, along with "To The Moon".

This game has its flaws, but it does everything right that it tries to do right.

Worth the \$10. It may seem a little rough around the edges but the gameplay and controls are fun. Great game to jump in and out of.. Really a fun game!

I enjoyed it as a single player game.... But this thing really shines when you play with other people - it has a chaotic/smash bros sort of vibe to it. The zoo animals are pretty amusing and each individual level is pretty short and sweet (at least for quite a while).

Also - I had been playing this with WASD & a mouse --> but it is a much funner experience with a twin stick controller.. One of the better escape room games I've played. Really hit close to home with my love for them.

If you like puzzle games and to think outside the box. I really recommend this game!. A relatively short story, but I found it satisfying. The characters were decently developed, and the story was fast paced. I only noticed a couple of grammatical errors. Overall, I'd give this a 7/10, and I'd suggest giving it a read.. Worthy DLC adding a completely new act with best map for grinding stuffs. Also, the plot from main game comes to an end here so if you are interested what happened to the Mumma... ;-). you should pick up this game to play c; i highly recommend it . its got alot of replay value indeed c; i loved playing this game c; i let's play this game on my youtube channel and enjoyed it every bit of it c; Keep it vidas i love your games and especially loved this game c; 10/10. 5 Minutes into it and the tutorial guy gives me a waypoint to go to. Can't seem to get the boat to go in direction of the way point even when I turn it. Game Over twice for no apparent reason. I don't recommend this game.. Art style 10/10

Very original puzzle/point-and-click tasks really like that and creative also
